

Dear Mr. Holmes:

Please share the message below with potential travellers:

My name is David McDougall and I am a hockey coach in Parry Sound, Ontario, Canada. I have coached players ages 5 to Junior at many different levels. I have played NCAA hockey and been around the game in many different capacities. I work as a school Principal and operate a hockey school in Ontario.

In the summer of 2009, we embarked on taking a group of midget age AAA hockey players to Germany and the Czech Republic for an augmented hockey experience for 12 days. As you can imagine, with costs to consider and an extensive array of requests from our travellers, the planning and coordination of such a venture is extensive.

We had the pleasure of working with Mr. Jack Holmes and the Sport Travel Company to plan and carry out the logistics of our trip. We found that communication through the planning phase was excellent in meeting our needs. As we worked together, Mr. Holmes kept costs as we had negotiated and booked an experience for us filled with fantastic hockey experiences and learning, adequate European accommodations, and good food.

Due to the fact that these trips can be very costly and potentially a once in a lifetime experience for many of our entourage, it was important that we get good value for our money. I was very impressed with Mr. Holmes' ability to massage our trip itinerary and tweak some things to try and make the undertaking enjoyable for the Muskoka Knights Hockey Club. All events ran as planned. We are currently working with Mr. Holmes planning our European venture 2011.

If you would like to know more about our experience, please do not hesitate to contact me at mcdougald@gmail.com. Good luck with your planning.

Sincerely Yours,

Mr. David McDougall
