RE: North York Knights Pee wee A
Scandinavia Tour – December 2019-January 2020

Jack

The trip of a lifetime! After 14 months of planning and fundraising our NYK 07 Pee wee's have returned from Scandinavia after experiencing what I can only say was the trip of a lifetime. We had been thinking of this kind of trip for a number of years and when we decided to go for it your company took care of everything.

From the moment we landed in Stockholm you made the experience effortless – we were impressed with the scheduling which allowed for family time and sightseeing while balancing exhibition games and the tournament in Finland.

The teams we played were well matched (we came away with a bronze medal!!) – which was simply the icing on the cake for us. The parents, siblings and players are still raving about the trip and have all said it could not have gone better.

Our driver and guide were exceptional – getting us everywhere on time with stories and historical tidbits along the way. Our hotels were great, centrally located with great meals. The cruise on New Year's eve was a highlight as was the KHL game!! Please thank Robert again for sporting his Canadian hat after we beat Finland in the World Juniors!! He was a great sport...

Thank you for taking such good care of us. I will recommend you and act as a reference to anyone looking to experience an international tournament.
You guys are simply the best at what you do.

Thank you Jack!!
Julie
