

PCI TROJANS,

The PCI Trojans had a life changing experience at the hands of Jack Holmes travel. The players, parents and coaches are still reeling from the experience. We travelled to five different countries and played a hockey team from each one. We toured the sights, met the locals and shared experiences that will last a lifetime. Seldom do you captivate a teenagers attention for twelve days, but Jack did an outstanding job of creating a touring package that challenged the guys mentally, physically and emotionally and kept their attention on the experiences that unfolded in front of them. This is our second tour with the program and I highly recommend it. We will be back!
